I. Statement of Purpose, Implementation & Enforcement

The purpose of Contra Costa Certified Farmers' Markets, Inc. (CCCFM) is to operate Certified Farmers' Markets in Contra Costa County in accordance with all applicable laws, ordinances and regulations (Applicable Laws) for the mutual benefit of producers of certifiable agricultural products, non-certifiable agricultural products, and non-agricultural products that are offered for sale directly to consumers without the intervention of middlemen. All agricultural products sold at the markets are subject to federal and state marketing orders, laws, rules and regulations, and local health and safety laws, regulations, and ordinances.

Under the California Department of Food and Agriculture, the County Agriculture Commissioner certifies qualifying markets as direct marketing outlets for agricultural Producers to sell their products *directly* to the general public. All agricultural produce must meet applicable minimum quality standards but does not have to meet the usual size for standard pack, labeling, and container requirements.

The markets may introduce additional non-certifiable agricultural products and non-agriculture products to enhance and strengthen the uniqueness of what is offered at the Farmers' Market. This direct marketing philosophy applies to Producers of non-certifiable agricultural products and non-agricultural products. Even though, these products are not regulated by the State Direct Marketing regulations, they are required to comply with the local county and city laws. **Producers may not resell any products produced by others.**

CCCFM established, and maintains and manages, a number of certified farmers' markets in Contra Costa County. It does this by enforcing applicable governmental rules and regulations, and by establishing and enforcing these Governing Rules in a fair and equitable manner in order to facilitate an effective and efficient sales outlet for our members and consumers.

II. State Regulations

CCCFM is governed by California law, including portions of the Food & Agricultural and Health & Safety Codes. In enforcing these California Codes and other laws, CCCFM may turn over evidence of violations to the appropriate authorities, including but not limited to County Agricultural and Environmental Health Inspectors.
